

**ITS TIME -for the climate election. Key: C#**

*[tell crowd that they are to echo my chant at the end]*

20,000 kids marching on the street,  
*It's time- for the climate election,*  
Facing a future of drought and heat  
*Climate action now.*

While leaders lie and the rats deny,  
*It's time- for the climate election*  
Farmers watch their livestock die,  
*Climate action now.*

*Act now- before it's too late,*  
*It's time- for the climate election,*  
*This generation - can't wait,*  
*Climate action now*

Asphalt melts on the motorways,  
*It's time-for the climate election,*  
cars bog down in the diesel haze,  
*Climate action now*

Its time to protect our water and soil,  
*Its time- for the climate election,*  
Time for an end to coal and oil,  
*Climate action now.*

*Act now- before it's too late,*  
*It's time- for the climate election,*  
*This generation - can't wait,*  
*Climate action now*

Throw the greedy deniers out,  
*It's time for the climate election,*  
The cost of coal is fire and drought,  
*Climate action now.*

There's no time left when the oceans rise  
*It's time-for the climate election,*  
The future's dying before our eyes,  
*Climate action now*

*Act now- before it's too late,*  
*It's time- for the climate election,*  
*This generation - can't wait,*  
*Climate action now*
